SOYBEAN INSPECTIONS FOR CROP YEAR 1945-46 HIGHEST OF RECORD

Inspected receipts of soybeans have increased, during the six years for which records are available, from a total of 33,280 cars for the crop year 1940-41 to a record of 84,357 cars for the 1945-46 season just completed, according to inspectors' reports to the Grain Branch of the Production and Marketing Administration. Total inspections for the year 1944-45 were 83,744 cars.

The quality of the 1945 crop was excellent, 92 percent grading No. 2 or better compared with 88 percent the preceding year and 86 percent in 1943-44. Ninety-eight percent classed as Yellow last season.

September 1946 inspections totaled 475 cars, with 91 percent grading No. 2 or better.

Inspections of soybeans in September included the equivalent of 9 cars inspected as truck receipts.
